

Benefit-Risk Assessment Methodology Workshop

Statistical Issues in Medical Statistics, FMS/DSBS 5th Joint Workshop

7 June 2012

University Hospital, Malmö, Sweden
(Copenhagen area)

An increase in the use of quantitative Benefit-Risk Assessment methods has been proposed to aid in the evaluation of new medicinal products by regulatory bodies and reimbursement committees throughout the world. This workshop will provide a forum to hear about the latest developments in the applications of these methods from a world-leader in this area – keynote speaker Larry Phillips -- from representatives of European regulatory bodies, and from practitioners in the pharmaceutical industry and academia. Presentations from each of these perspectives are planned as well as an opportunity to interact with the speakers in a panel discussion.

The program will run from 10 am to 5 pm and will include the following speakers;

Professor Lawrence Phillips	London School of Economics
Dr Andrew Thomson	MHRA
Professor Johan Bring	Statisticon AB
Dr Sinan Sarac	Danish Medicines Agency
Dr Doris Stenver	Danish Medicines Agency
Dr George Quartey	Genentech
Professor Ulf Persson	Swedish Institute of Health Economics

The workshop will conclude with a panel discussion chaired by Carl-Fredrik Burman

Venue. Malmö University Hospital is a 20 min. transfer by train from Copenhagen airport.

Cost. The registration fee is €150 Euros for participants from the industry and €75 Euros for participants from regulatory agencies and academia.

Register at www.efspi.org or by contacting EFSPi Secretariat at : +44 (0)1625 664549 or efspi@kingstonsmith.co.uk
